

EGGSHIBITION

Friends,

You are invited to an egg-stravaganza! Eggshibition is the longest running event in Arkansas and there's a spot for you or your organization to get involved.

The 25th anniversary of Eggshibition in 2016 raised over \$150,000 and was recognized by the readers of the Arkansas Times as the "Best Local Charity Event." We are building on that success by featuring live and silent auction items, original hand-blown glass from James Hayes, as well as live music and other fun. Craig O'Neill is this year's auctioneer!

Help us celebrate with egg-quisite art, hors d'oeuvres, and libations.

Time:

*Friday,
April 7, 2017*

Location:

*UALR's Jack
Stephens Center*

Nationally celebrated artists, as well as new and emerging talent, work with plaster eggs, ostrich eggs, or create their own unique medium. The finished masterpieces come in all shapes, sizes, and themes; continuously proving there is always potential for growth and reinvention, even for something as simple as an egg.

For more information about Youth Home, its programs, Eggshibition, or to take a tour of our campus, contact Chief Development Officer **Larry Betz** at Larry.Betz@YouthHome.org, 501.821.5500 ext 209, or visit YouthHome.org.

I hope to see you there.

- Chris Haynes
Eggshibition Committee Chair

Jon Hatton, owner and craftsman behind **Rock City Thumps**, creates intricate and multi-functional eggs for Eggshibition like this tribute to *20,000 Leagues under the Sea*, which is hand sculpted around an ostrich egg and is a disguised Bluetooth speaker.

He has won the title of **Artist's Favorite** for three years in a row and is passionate about getting more artists involved because, he says, "I see Eggshibition as a great way to be involved in a great cause. I use it as a way to stretch myself as an artist because, come on! It's an EGG. What can be done with an EGG? I love to push the limits and see what I'm capable of."

How does Youth Home help?

Adolescents leave our program with a wealth of information and new problem solving skills. Young people who enter our program have individual problems to address; many of them leave with personal, individual success. Success is when a family functions more effectively, a patient attends school regularly with passing grades, or a client maintains employment.

Youth Home is a safe place for the adolescents we treat. In residential treatment, most patients are able to successfully resolve some of their issues, and almost all move in a positive direction toward healing. We provide the tools they need to continue the healing process after leaving Youth Home.

For more quantitative results, the Youth Outcome Questionnaire (YOQ) is completed at the time of admission, again at discharge, and finally three months after discharge. The results of the YOQ indicate significant improvement in symptom reduction for the majority of Youth Home patients – after our residential program, youth show an 86% functional improvement as reported by parents.
